

# BASIC EXPLOSIVES RECOGNITION TRAINING KIT

X-TEST Product No. SECUR001

## ABOUT THIS KIT

This kit contains a wide range of simulants that replicate military, commercial and improvised explosive materials most commonly and universally used by terror organizations. It also contains various types of detonators, operating switches, and mechanical and electronic operating systems for Improvised Explosive Devices (IEDs) and operating switches.

## TARGET AUDIENCE

This kit and its components are designed for training security personnel at airports, highly secured buildings, government facilities, mass transit and marine transportation sites, as well as employees of law enforcement agencies. The kit allows security personnel to become familiar with a broad range of explosive materials, detonators and operating mechanisms.

## TECHNICAL SPECIFICATIONS

### The kit includes the following simulants:

- C4 (1/2 lb / 225 gr)
- Semtex H (1/2 lb / 225 gr)
- Semtex A (1/2 lb / 225 gr)
- Semtex 10 (1/2 lb / 225 gr)
- ANFO (1/2 lb / 225 gr)
- TNT (1/2 lb / 225 gr)
- TNT flakes (1/4 lb / 112 gr)
- Deta sheet (6 mm, 1/4 lb / 112 gr)
- Dynamite (1/4 lb / 112 gr)
- Nitrocellulose/Guncotton (vial)
- RDX (vial)
- TATP powder (vial)
- Nitroglycerin liquid (vial)
- PETN (vial)
- Detonation cord (14 inch / 30 cm)
- Slow burn fuse (14 inch / 30 cm)

### The kit includes the following accessories:

- Copper, aluminum and cardboard detonators (electrical and non-electrical)
- Electric match head
- Russian chemical detonator
- Russian mechanical detonator
- British pencil detonator
- Transparent detonator
- Improvised chemical initiator
- Improvised electrical initiator
- Electronic timer
