

BOOBY TRAP MECHANISMS FOR COUNTER TERRORISM UNITS TRAINING KIT

X-TEST Product No. SECUR002

ABOUT THIS KIT

This kit contains an assortment of booby trap mechanisms with audio and visual indicators that appear upon activation, anchoring accessories and inert Improvised Explosive Devices (IEDs.)

TARGET AUDIENCE

This kit is designed for military special units and special law enforcement agencies that deal with hostage situations, hot entry and counter terrorism activities.

The kit allows security personnel to simulate booby trapped arenas and train in life-like situations. The additional inert IEDs can be attached to different booby traps and the anchoring accessories enable the user to attach the booby traps to walls, doorways, windows and other elements.

A five-day workshop on IMPROVISED EXPLOSIVE DEVICES (IEDs) AND BOOBY TRAPS IN HOSTAGE RESCUE SCENARIOS is recommended when purchasing this kit.
