

## Inert Advanced Threat Screening Kit – ASK8000

DSA Detection®

### INERT ADVANCED THREAT SCREENING KIT

**Accurate:** Density, X-Ray and WTMD,  $Z_{eff}$

**Technology:** Backscatter, Computed Tomography, Single and Multiple X-Ray Generator Systems, mmWave

**Approvals:** DSA is a DHS/TSA qualified vendor list (QVL) provider for training aids.

The ASK8000 Advanced Threat Screening Kit provides a wide array of challenging threat replicas for security officer training and testing. This kit can also be used to test checkpoint equipment detection algorithms to better understand how they function.

Inside the kit are various inert concealed IEDs, firearms, explosive simulants, weapons, and bomb components. Each laptop device has an explosive concealed in a different part of the laptop, the cell phone IEDs demonstrate different ways they can be turned into a threat, and the knives were chosen based on their design and construction. Every item in the ASK8000 was chosen to test an experienced/veteran security officer's ability to detect prohibited items. The items in this kit were selected to be difficult to identify both during visual inspection and when scanned in an X-ray system. This kit is a good option when honing experienced screener's skills or when conducting penetration testing.

## Advanced Threat Screening Kit ASK8000

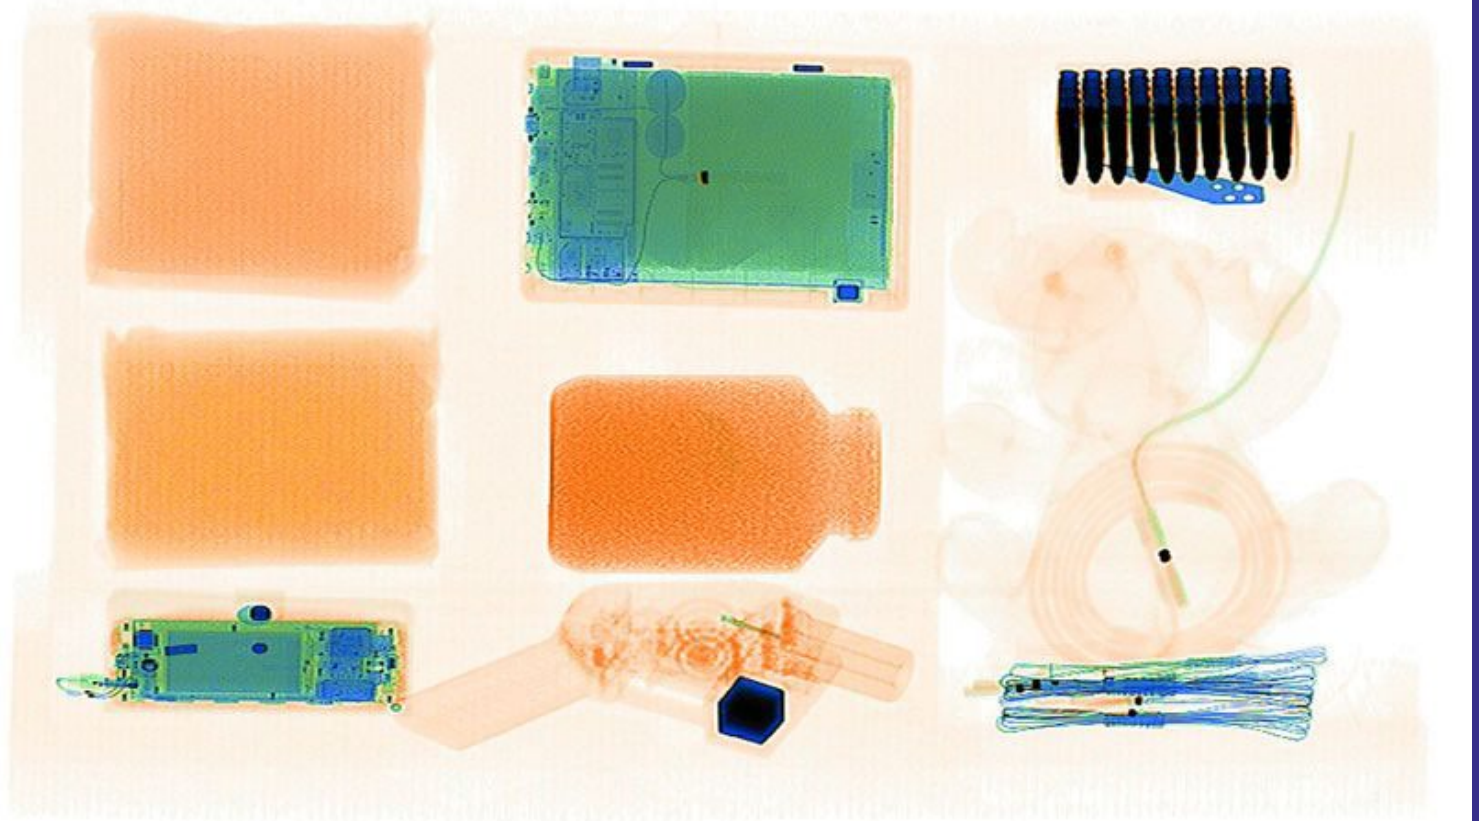

Qty.	Part Name	Part #
<b>Training Devices</b>		
1	Inert Laptop IED (Sheet Explosive behind screen)	CED0001
1	Inert Laptop IED (Sheet Explosive in CD space)	CED0098
1	Inert Laptop IED (Sheet Explosive in HD space)	CED0099
1	Inert Stuffed Animal IED	CED0003
1	Inert Tablet IED	CED0004
1	Inert Child's Electronic Plush Toy	CED0005
1	Inert Phone Case RCIED (Sheet)	CED0006
1	Inert Cell Phone Concealed IED	CED0081
<b>Weapons</b>		
1	Plastic Razor Blade	TKC0102
1	Credit Card Knife	TKC0126
1	Inert Box of 9mm Ammunition (50 rounds)	TSK0099
1	Inert 3D Printed Firearm Replica	TSK0610
1	Inert Mini Revolver, Single Action	TSK0680
1	Inert Mini Revolver, Single Action, Disassembled	TSK0690
<b>Inert Blasting Caps</b>		
1	Inert Commercial Pull Friction Igniter	TSK2323
2	Inert Improvised Light Bulb Detonator	TSK0192
2	Inert Electric Blasting Cap (Shunted)	TSK2602
2	Inert Commercial Fuse Head Blasting Cap	TSK2820
<b>Explosive Simulants</b>		
1	Inert Exploding Target (1lb)	TSK3350
1	Inert Poor Man's C4 Simulant (1lb)	TSK1210
1	Inert Emulsion	TSK8050
1	Inert ANAL (1lb)	TSK8085
1	Inert TATP (1lb)	TSK9070
<b>Shielding</b>		
1	Soda Can Safe	TKC0491
1	Shielding .35mm (12" x 12")	TSK3150
